

# COMMUNITY BASED & ONLINE HEALTHCARE SERVICES & RESOURCES

---

Healthcare is a vast and complex field encompassing various medical practices and services. We recognize that every individual's health journey is unique and shaped by social, economic, and environmental factors. As a result, healthcare providers must take a personalized approach to treatment and care and work with each patient to understand their unique needs and circumstances.

With this understanding, we welcome all seeking information and resources on community-based and online health services. Whether you need affordable healthcare options, trustworthy recommendations, or information to make informed decisions about your health, this guide is here to assist you. Our comprehensive resource guide provides empathetic support and valuable guidance, recognizing the unique health journeys and challenges faced by individuals. From low-cost clinics and telehealth services to expert advice and support networks, we're dedicated to celebrating the unique pathways each person takes in their pursuit of health and offering the kindness and guidance everyone deserves on their healthcare journey.

We invite you to explore the resources in this guide at your own pace, seeking the support and knowledge that resonate with you. If you have any questions or concerns about an agency listed in this guide, please do not hesitate to contact our offices at 225-342-1570 for more information.

Health & Happiness,

Particular attention is directed at reaching the low income, uninsured, underinsured, Medicaid, Medicare, and vulnerable populations.

## **COST PLUS DRUG COMPANY**

[Click here for website](#)

We started Mark Cuban Cost Plus Drug Company because every American should have access to safe, affordable medicines. If you don't have insurance or have a high deductible plan, you know that even the most basic medications can cost a fortune. No American should have to suffer or worse – because they can't afford basic prescription medications. Our goal is to dramatically reduce the cost of drugs, but we also think that it is just as important to introduce transparency to the pricing of drugs so patients know they are getting a fair price. Every product we sell is priced exactly the same way: our cost plus 15%, plus the pharmacy fee, if any. When you get your medicine from Cost Plus Drug Co., you'll always know exactly how we arrived at the price you pay. And as we grow and our costs go down, we will always pass those savings on to you!

Teche Action Clinic wants to be your Primary Care Medical Home. Also called a patient-centered medical home, a PCMH is a source of primary health care in which services are provided to a patient by a designated primary care clinician who works collaboratively with an interdisciplinary team to deliver safe, high-quality care. In this model, teams work together to accomplish the following goals: Partnering with patients and involving them in developing their treatment plan; providing enhanced access to care, including same-day appointments, e-mails, and telephone calls; tracking and coordinating care delivered by other clinicians and facilities; managing care transitions and encouraging patient self-management. The care we deliver to our users is patient-focused, coordinated and comprehensive.

Trinity CHC is a Federally Qualified Health Center (FQHC). We are partly funded by the Federal Department of Health & Human Services because our area was shown to have unmet medical needs. FQHCs were specifically created to respond to the healthcare needs of people with limited access to care because of their income, medical condition, or healthcare professional shortages. Trinity CHC offers primary care, oral health, and behavioral health. We have expanded our footprint to cover six parishes and are currently in 30-plus schools in Central Louisiana.
